

# TruEmbroidery<sup>TM</sup> 3

SOFTWARE FOR MAC

for Mac® OS X Yosemite, Mavericks  
the premier embroidery software for Mac® computers  
works with most embroidery machines

# TruEmbroidery™ 3

SOFTWARE FOR MAC

TruE™ 3 is the embroidery software designed specifically for Apple® users. With a true native Mac® interface, including OS X Yosemite features, you'll have the ease of multi-touch gestures and version saving.

## create it

produce perfect embroidery designs automatically to fit your hoop

## see it

view and design in three dimensions, in your specific hoop, and audition your designs on real-life fabrics and garments

## adjust it

rotate, resize, and mirror; Encore multiple designs; align, move, and combine to create Endless designs

## modify it

reshape, restyle, and enhance your embroideries with easy object editing features

## letter it

use over 145 specialty fonts including Puffy Foam, satin and hundreds of fill options – or create your own lettering automatically

## color it

adjust colors automatically with Color Tone; hover over a color block to highlight the stitches

## embellish it

add lace designs, motifs, appliqué, and specialty fills

## quilt it

create a filled or outlined quilt block automatically, or create quilting fills around your designs

## PhotoStitch™ it

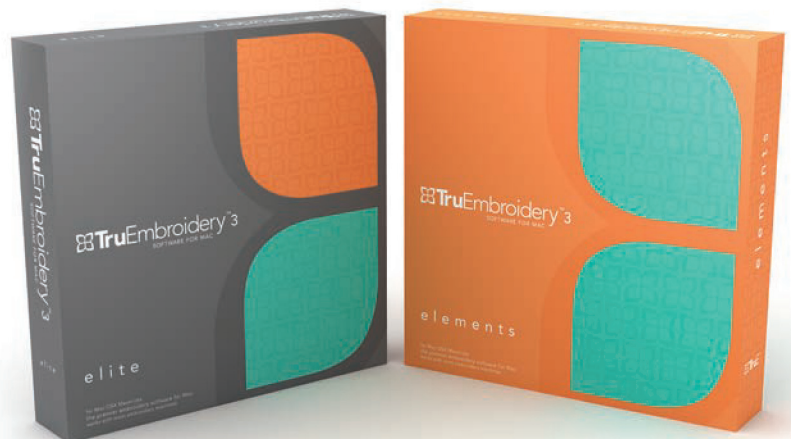

automatically generate colorful or monochromatic, realistic embroidery portraits from your own photos

## frame it

make your projects complete with hundreds of borders, corners, flourishes, and shapes

## organize it

search, save, and categorize your designs, organize your thread stash, and create thread palettes

## common features

### view and work with your designs in real three-dimensional reality

- view, move, and magnify designs in three-dimensional reality with Life View
- watch your design “stitching” on the screen with Design Player
- print your designs in three-dimensional reality with color worksheets and real-size background templates

### complete control at your fingertips

- use multi-touch gestures: “pinch” to resize or “twist” to rotate the selected embroidery
- cursor changes according to function selected for easy visual reference
- easily constrain perfect proportions when resizing
- view any measurements in metric or standard
- unlimited undo and redo

### select your favorite colors and threads

- change colors with the scrolling realistic color palette
- hover over a color block to highlight stitches of the selected color
- pick a color from the Mac® Colors Window to find your threads
- choose from over 20,000 threads from 37 different manufacturers
- view specialty threads including metallic, multi-color and varying thicknesses
- Intelligent ColorSort automatically reduces required thread changes

### helpful tools and resources

- printed user’s guide, tool tips, extensive program help, and interactive tutorials
- store information and keywords about your designs in the notes and settings
- Smart Update always gives you the latest updates for your software

choose from over 145 fonts or make your own

create a filled or outlined quilt block automatically with the QuiltBlock Wizard

## TruE™ 3 Studio

adjust, personalize, and combine embroidery designs, frames, and flourishes

the perfect canvas for your creativity

- combine and adjust an unlimited number of designs and lettering
- project areas up to 2m in width or height
- create designs automatically from clip art, photos, and more

complete control over your designs

- select multiple designs and move them as a group
- move designs into a specified hoop automatically
- align designs with multiple placement options within hoop
- resize any design while keeping stitch density constant
- Move, add or delete stitches, color, stop and trim commands, and tie stitches

personalize and customize

- create one, two, or three letter monograms to personalize your designs with the Monogram Assistant
- make any embroidery Endless; repeat your favorite embroideries across your chosen hoop
- Encore multiple designs along 8 line types in a circle, in one of 28 shapes, or to border your hoop

smart lettering for endless options

- generate fonts automatically from TrueType® or OpenType® fonts with the QuickFont Assistant
- change the way your lettering appears with 21 different line types
- adjust spacing and resize letters individually
- lettering fills include satin, pattern, contour, spiral, shape, QuiltStipple, motif, MultiWave, and more

frames and flourishes

- surround your design with more than 500 included frame and flourish options
- create a border automatically using the 75 included shapes
- add individual decorative motif, motif underline, or motif border

audition designs and fabrics with ease

- preview your designs on textured fabric backgrounds, real-life garments, and quilt blocks
- view special effects like Puffy Foam or glow-in-the-dark threads
- fade background levels and move the background as you need
- over 2400 backgrounds included

## PhotoStitch™ Assistant

embroider photo-realistic portraits automatically from your own photos

- create portraits, greeting cards, family quilts, framed pictures, and much more
- 10 stitch effects including color\*, color tile\*, monochrome linear, and sepia\*
- use artistic effects like spiral or maze to create beautiful, single-color designs
- adjust density to achieve new effects
- use auto-level and remove backgrounds to adjust your pictures for the best results

## QuiltBlock™ Assistant\*

create a filled or outline quilt block automatically – you can even create a new quilting fill around your embroidery

- select any quilting fill to surround your embroidery design
- add one of 75 internal shapes as a fill, or outline within a filled block
- Quilt Block Wizard walks you through every choice for your filled or outline quilt block
- choose one of 9 tessellating quilt block shapes that may be placed at any angle to help piece a quilt
- stipple, channel, diamond, echo, motif, contour, and shape effects

## QuickCreate Assistant

automatically generate standard, trace or border designs to personalize any project

- create new designs from clipart
- create standard embroideries using satin and fill areas
- with QuickBorder you can add running stitch, mofti, satin border or appliqué
- trace outlines in a picture with QuickTrace to create redwork designs and more
- includes a library of 375 clipart images

## Split Project Assistant\*

split your project automatically to fit in your preferred hoop

- add alignment stitches automatically for re-hooping
- print an overview and templates
