6 finished projects

BERNINA Embroidery Software 8 DesignerPlus

1 kitty photo digitized with Color PhotoStitch

363 stars designed with 3D Globe Effect 3 easily created textures with Conching

1 embroidery software for great designs

made to create BERNINA

New Features to Enjoy

Positioning

- Set the design worksheet and add the template to your preview
- Move and rotate the design within hoop
- Use the advanced print preview options
- Use hoop template and basting stitch markers for exact positioning

Multi-Hooping

- Automatically places hoops to cover the entire design, fitting as many objects as possible into each hoop position
- Preview hooping sequence
- Multi-hooping options shortcut to the existing options dialog
- Save as complete design or as separate multi-hooping machine files

Color Management

- Color palette positions are numbered for easier reference
- Color Wheel features various options
- Chosen colors are tagged with a blue marker
- Hide or show unused colors in the palette
- Easy to pick a color and fill other objects
- Same default colors in palette (56 + 3 appliqué)
- Horizontal or vertical layout

Automated Quilt Block Layout

- Automatic quilt background stitching used to create 'echo' quilting designs, like scroll clipped or stipple filled quilt blocks
- Quilt block sizing and positioning aids

Integrated Design Library

- Better and more powerful search engine
- Quicker access to all designs and improved design management
- Easier to browse, group and search for designs

User-friendly Interface and Improved Features

- Enhanced intuitive and easy to manage menu
- Choice between small or big icons for a perfect view
- Tool names and function can be shown if desired
- More than one design can be opened at a time, easy switching between designs via Design Tabs

BERNINA Embroidery Software 8— more creativity in 3D

Now available on a USB stick, it includes an advanced range of great new features, including 3D effects, for unique surface embellishments.

Turn your favorite photo into embroidered eternity with the new Color PhotoStitch feature. The new 3D Globe Effect brings pattern fills to life while the incredible Couching Effect plays with wool thread and embroidery in combination. Your monograms and letters clearly stand out with Puffy Lettering and the advanced CutWork functions gives your cut-outs outstanding results. Use the PunchWork and StumpWork options to add special effects in combination with embroidery.

The incredible software features are easy to use and navigate thanks to the updated user-friendly interface. The Positioning feature makes it easy to place designs in the right spot. Creating large designs is a cinch because of the Multi-hooping feature which automatically places more than one hoop for large designs. Palette positions are numbered for easy reference within the new Color Management system. And embroidering on quilts just got easier with the new Automated Quilt block layout feature. Whatever you imagine-you can do with the BERNINA Embroidery Software 8 DesignerPlus. Whether it's applying special effects to artwork, adding text, shapes, freehand drawing elements or tracing bitmaps for unique multi-media projects. Easily turn artwork from various graphic formats in just one click using the Automatic Digitizing tool. Preview your design on different article options. Embroidery has never been easier and more fun.

The new BERNINA Embroidery Software V8 packages consists of a USB stick and a Product Key Card, which replaces the traditional dongle. The USB stick is used for software installation and the Product Key Card is used for activation. The BERNINA Embroidery Software 8 is only available at the DesignerPlus level. For more information about installation, update and/or upgrade, please contact your local BERNINA store or visit bernina.com/V8.

Turn your best friend's photo into a realistic and detailed embroidery design. Within a few simple steps, the automatic digitizing transfers your photo into an easy-to-stitch out embroidery design. Choose the color and size, and the software does the rest.

Create a 3D look with the Globe Effect feature where flat embroidery is turned in a 3D design through a visual illusion.

Couching NEW

Create special embroidered effects with wool in combination with classic stitching. The wool threads pop out on your design for stunning effects.

Design Library NEW

The integrated Design Library offers quick access to all your designs making it easy to browse, group, search or get inspired.
